No. 581.

SIR,—

I have the honour to transmit to Your Royal Highness, for the information of your Ministers, a copy of a notice published in the press on the 15th June, containing information for the guidance of persons desiring to record:—

(a.) Debts (including bank balances) due to British subjects from persons residing in enemy countries:

(b.) Other property in enemy countries (including securities) belonging to British subjects.

2. The Foreign Claims Office referred to in the last paragraph of the notice has been set up at the Foreign Office for the purpose of dealing with all claims for the settlement of which no satisfactory machinery has existed hitherto, and which are foreign in the sense that they are claims by British subjects against a foreign Government or by foreign nationals against His Majesty's Government.

The Governor-General,

## BRITISH PROPERTY IN ENEMY COUNTRIES.

## HOW TO RECORD CLAIMS.

WE are officially informed that it has been arranged that the Public Trustee shall keep a record of:—

(a.) Debts (including bank balances) due to British subjects from persons residing in enemy countries:

(b.) Other property in enemy countries (including securities) belonging to British subjects.

Any person desiring to record such claims or property can obtain the necessary form for that purpose (Form G in the first case and Form H in the second) from the Public Trustee. Applications should be made to the Public Trustee (Trading with the Enemy Department), No. 2 Clement's Inn, Strand, W.C.

It must be clearly understood that the action of the Public Trustee will be confined to entering upon the record claims of which particulars are supplied to him, and that in no way commits His Majesty's Government either to responsibility for the correctness of the claim entered or to taking any action on the conclusion of hostilities or otherwise for the recovery of the debts or property in question.

The Public Trustee will record claims against enemy Governments in respect of public securities of those Governments held by the claimants, but other claims against enemy Governments (e.g., in respect of goods or property requisitioned or sequestered) as distinct from claims against enemy subjects should be notified to the Director of the Foreign Claims Office, Foreign Office, S.W.

"(b.) Where it is found that for the health and development of a stand of immature green trees, silvicultural operations such as thinning are necessary, permits for the removal of such trees as it may be necessary to cut out may be granted free or at such rate of dues as may be determined by any

### COMPENSATION BOARD.

#### NOTICE.

#### WORKMEN'S COMPENSATION BOARD.

PURSUANT to section 51 of the "Workmen's Compensation Act," the Workmen's Compensation Board has adopted the following Safety Rules and Regulations, the same to take effect from the 16th of June, 1918:—

#### GENERAL.

*Transmission Machinery, Shafting, Couplings, Pulleys, Gearing, Belting, and Conveyors.*

1. *Emergency Stopping Device.*—(Except with the consent of the Board.) Wherever there is power-driven machinery, a device shall be provided at a convenient point or points, in each department or work-room, whereby either the entire power-supply in that department or room may be cut off as a whole or the one or more lines of shafting used in driving counter-shafting or directly driving machines may be cut off independently.

2. *A Safety Placard* shall be prominently displayed, calling attention to the stopping device and method of operating same.

3. *All Safeguards* shall be well constructed and of the best material for the purpose and maintained in place.

4. *All Manufacturing Plants* shall have signal-cords connected with the bell or whistle, and located in convenient places on each floor.

5. *All Workmen* in a plant shall be taught how to make use of the system of signal by which all the machines can be stopped in case of accident.

6. *Oiling, Cleaning, and Repairs.*—Workmen shall not undertake to oil, inspect, clean, or repair machines in motion or moving parts of machinery unless previously authorized to do so by the foreman or overseer.

7. *Clothing.*—The clothing of employees having to work around moving parts of machinery, and particularly those whose duty it is to oil up and repair machines, shall be buttoned and close fitting.

8. *Gloves and Mittens.*—Gloves or mittens shall not be worn when handling belts when in motion, or working on machinery where they are liable to be caught in moving machinery.

9. *Handling Belts.*—No belt larger than three inches (3") wide (except with the consent of the Board) shall be connected by hand unless it be slow-running. Slow-running belts shall be defined as those running less than one hundred and twenty feet (120') per minute.

10. *When a Belt is not in Use* it shall be hung up in a place where it cannot be caught by pulleys or shafts.

11. *Horizontal Shafting.*—Any portion of a horizontal shaft which is six feet six inches (6' 6") or less from the floor or working-platform, or which may be approached while in motion, shall be guarded on the sides and bottom or protected by a standard railing ensuring at least fifteen inches (15") and not more than twenty inches (20") horizontal clearance from the nearest moving part.

12. *Vertical Shafting.*—(Except with the consent of the Board.) Vertical or inclining transmission shafting shall be encased to a height of six feet (6') from the floor.

13. *When a Shaft, pulley, or belt* passes through the floor (or any guard is placed around floor opening) a six-inch (6") solid section or toe-board

shall be placed at the bottom of the guard, and a heavy top rail not less than three and a half feet (3½') high.

14. *Projecting Shaft Ends or Keys*.—All projecting shaft ends or keys shall be cut off or properly protected with stationary casing.

15. *Fly-wheels*.—All sections of fly-wheels with spokes which are six feet six inches (6' 6") or less from the floor and which are exposed to contact shall be guarded. Fly-wheels which run in pits shall be provided with handrail and toe-board around the pit.

*Exception*.—Where an engine is isolated in a room used exclusively as an engine-room, the fly-wheel of such engine may be guarded with a railing. This railing shall be constructed with two rails, the bottom of which shall not be less than eighteen inches (18") from the floor. Whenever main or auxiliary engines are located in a basement, they shall be completely railed or fenced off so that no unauthorized person can gain access thereto.

16. *Couplings and Collars, Keys and Set-screws*.—Shaft-couplings and set-collars shall be of a safety type, without projecting bolts, set-screws, or other dangerous projections, or be completely guarded.

17. *Clamp-couplings* shall be guarded by a cylindrical sleeve the full length of the coupling.

18. *Jaw-clutch Couplings* shall be provided with cylindrical sleeve which at least covers the jaws.

19. *Universal and Flexible Couplings* shall be so guarded or encased as to remove all hazards.

20. *Friction-clutch Couplings* shall have their operating mechanisms, where exposed, completely guarded.

21. *Keys* exposed to contact shall be made flush or guarded.

22. *Key-seats*, where exposed to contact, shall be guarded.

23. *Set-screws* or revolving parts shall be countersunk, or covered by a guard, or a headless set-screw shall be used. No part of the set-screw shall project above the surface.

24. *The Above Guards* shall be so designed, where practicable, as not to revolve with the part guarded.

25. *Friction-drives*.—The contact faces of all friction-drives, when exposed to contact, shall be enclosed.

26. *All Frictions* with projecting bolts shall be guarded.

27. *Bearings*.—Accurate alignment of bearings is an important factor in safety and in economy of operation. Frequent inspections of bearings and hangers are desirable. They should be so equipped with oiling apparatus that there will be no occasion for the oiler to come into dangerous proximity with shafting when it is in motion.

28. *Pulleys*.—Pulleys shall be placed at a slightly greater distance from bearings or hangers or other pulleys (except tight and loose pulleys) than the width of the belt, so that in case the belt slips off the pulley it will not become wedged between the hanger and the pulley or between the two pulleys, thus pulling down the line-shafting. If it is impracticable to space pulleys farther from a hanger or another pulley than the width of the belt, the intervening space shall be guarded in such a way that it will be impossible for the belting to become wedged should it slip the pulley. This may be done by placing a spool four inches (4") larger in diameter than the pulley on the side of the pulley adjacent to a hanger or another pulley, or by use of a belt-hanger. Pulleys shall be frequently inspected for cracks which are likely to develop in the arms or rims. When a crack occurs a piece of the rim may be thrown out by centrifugal force and cause a serious accident. Testing by hammer will usually disclose any defects.

29. *Idler Pulleys or Tighteners* used to tighten belts on pulleys, if provided with counter-weights, shall have counter-weights guarded or enclosed.

### DOMINION ORDERS IN COUNCIL.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 22nd day of April, 1918.

PRESENT:

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL.

WHEREAS by Order in Council of the 17th March, 1917, it was provided that notwithstanding anything contained in the Regulations for the survey, administration, disposal, and management of Dominion lands within the Forty-mile Railway Belt of the Province of British Columbia as established by Order in Council of the 17th day of September, 1889, or the amendments thereto, during the remainder of the year 1917, the holders of homestead entries, who were employed as farm labourers within the Dominion of Canada, might be allowed the period of such employment as part of the required period of residence in connection with their respective entries, subject to certain conditions therein laid down:

And whereas the Minister of the Interior states that in his opinion it is desirable to make similar provision for the year 1918:

Therefore His Excellency the Governor-General in Council, on the recommendation of the Minister of the Interior, under and by virtue of the authority conferred upon the Governor in Council by "The War Measures Act of 1914," is pleased to further amend the above Regulations and the same are hereby further amended as follows:—

1. Notwithstanding anything contained in the said Regulations, or the amendments thereto, during the remainder of the year 1918, the holders of homestead entries, who are employed as farm labourers within the Dominion of Canada, may be allowed the period of such employment as past of the required period of residence in connection with their respective entries, subject to the following conditions:—

(a.) The time of employment to be counted as residence duties must be subsequent to the actual date of entry in each case. No settler claiming the benefit of the provisions of the Order in Council of the 17th March, 1917, and of these Regulations shall be given credit in connection with his entry, by reason of his having been engaged in farming operations during the years 1917 and 1918, for more than two terms of residence of six months each, and any settler who is thus allowed the maximum credit in connection with his entry shall be required to show, before his residence duties shall be deemed complete, that he has performed

six months' actual residence either on the land held by him under entry, or in the vicinity thereof, in accordance with the provisions of the Regulations:

(b.) The provisions of this Order shall not apply to unperfected proxy entries, nor to any case in which the entrant is engaged in any other employment than actual farm labour:

(c.) As soon as possible after the entrant commenced work it shall be his duty to forward to the Agent of Dominion Lands for the district in which his land is situated, sworn evidence satisfactory to the Minister of the Interior, giving particulars of the land held under entry, the nature of the work performed, where performed, date of commencement, and probable duration:

(d.) Within thirty days after the term of employment has expired, and in any case not later than the 1st of February, 1919, the entrant shall file with the local Agent for the district sworn evidence satisfactory to the Minister of the Interior of the time actually spent on farm work:

(e.) In the event of the cancellation of any entry for default in the performance of the conditions thereof, nothing in this Order in Council shall be held to confer any right or claim upon the former holder of any such entry who, being engaged in farm labour in Canada as aforesaid, has failed, prior to the date of cancellation, to notify the Agents of Dominion Lands for the district of the fact of his being so engaged:

(f.) The entry of any person complying with the foregoing provisions shall not, during the period of his employment on farm labour, be liable to cancellation by reason of his failure to perform the cultivation required in connection with his entry:

(g.) Notwithstanding anything to the contrary in the said Regulations, or any amendments thereto, the cultivation required to earn a patent where the entrant obtains the benefit of this regulation, may be performed in two years instead of three. Settlers claiming the benefit of the similar provision with respect to cultivation, under the Order in Council of the 17th March, 1917, referred to, shall not be entitled to further reduction of the cultivation requirements in connection with their entries by reason of the provisions of this paragraph:

(h.) In any case in which the Minister of the Interior is not satisfied as the *bona fides* of the case, he is authorized to withhold the benefits provided for by the foregoing.
